Authorization for this examiner's amendment was given in a telephone interview with Kao Lu on 08/22/2005.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach a table look-up method for Abstract Syntax Notation encoding/decoding systems comprising inter alia: adding a specified first index on received data; analyzing whether the received data contain explicit reference data, implicit reference data or optional data; modifying and storing the specified first index; and, comparing the modified first index with a plurality of existing second specified indexes in a reference table, wherein if a match is found, the data is considered fully decoded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
